RESEARCH SHEET FOR CASE STUDY:

Part 1. OBSERVATIONS from Documents and Data

1. Describe what happened, in your own words. Include the main events, where and when they occurred, the main people involved, and their roles.

2. Describe the location: county, state, city (if known), whether it was coastal or in the interior, and any other important characteristics of the geography.

3. Describe the population (demographics) of that location using census data from the GIS. NOTE: For *The Amistad* use the ship's manifest instead of census data.

COUNTY NAME:

CENSUS YEAR:

	Population	% of total population
Total population		100%
White population		
Enslaved population		
Free African American population		
African American total population

Part 2. INFERENCES and INTERPRETATION

For each answer, provide evidence from the documents or GIS to support your inference.

4. Do you think the characteristics of this location might have affected the events that happened? (See your answer to #2 above.) How? or why not?

5. Do you think the characteristics of the population might have affected the events that happened? (See your answer to #3 above.) Why, or why not?

6. How did enslaved people exercise *agency* in this case? Was it individual agency, group agency, or both? Within the system, outside the system, or both? Explain
